MINUTES OF THE SPRINGVILLE CITY WATER BOARD

Tuesday, June 9, 2015 6:30 a.m. 2900 E Canyon Rd. Burt Springs/Bartholomew Pond Field Trip Springville, Utah 84663

ATTENDANCE

Councilmember Richard Child Secretary

Marcie Clark

Board Members

City Staff

Alton Beck Nile Hatch Brad Stapley – Public Works Director Shawn Barker – Water Superintendent

Calvin Crandall - excused

Rollin Hotchkiss Rod Andrew

The meeting started near the Hobble Creek Trail at 2900 E Canyon Rd. Mr. Hotchkiss asked for a motion to approve the minutes from the May 12, 2015 meeting. Mr. Hatch made the motion to approve the minutes. Mr. Beck seconded. All were in favor.

Mr. Stapley explained that the site at 2300 E Canyon Road will be used as an overflow parking lot for the new Bartholomew Park. He showed a fenced off area, just east of the parking lot, which was thought to be a spring collection, but is not. Part of the parking lot, east of 2900 East has since been fenced off, where the spring collection is. Mr. Stapley talked about the possibility of moving city water shares to springs, instead of wells. Mr. Barker opened the Burt Springs pump house and explained how it works. The City intends to build a new pump house in the future. The spring collection pipe was opened and board members were able to see water flowing down in it. Brad Stapley led a tour around the pressurized irrigation pond, showing where collection boxes are, Ditch 1for Springville Irrigation Company, where the second parking lot will go for the park, and the bubble up structure for Strawberry Water. There was discussion about Strawberry Water and how it used to be muddy before the lateral was piped. Mr. Stapley expressed concern about adding non-oxygenated water to the pond. Mr. Beck asked how much Strawberry water is. Mr. Stapley answered that it is \$300 an acre foot, but Springville City has shares to it and the City could lease it out as a revenue source if needed. The water in the pond is about ten feet deep. Different aspects about the pond design were discussed. Mr. Stapley explained that he has directed the water division to look at where the water in the pond is being captured. The grand opening for the park will be Saturday, June 13th at 1:00 p.m. as part of the 50th Art City Days Celebration.

Adjourn – This meeting adjourned at 7:35 a.m.
